FRANK H. HURD, of Knox.
SUPREME JUDGE,
THOMAS M. KEY, of Hamilton.
COMPTROLLER OF THE TREASURY,
WILLIAM SHERIDAN, of Williams.
MEMBER BOARD PUBLIC WORKS,
ARTHUR HUGHES, of Cuyahoga.

Delano vs. Morgan.

Before the election, Mr. Delano declared that he would contest Morgan's seat in Congress, if he (Delano) were beaten. He was beaten—a majority of his fellow citizens having declared against him, and he now carries out his threat, by serving a notice of contest. The specifications are lengthy, but not one of them can be sustained without perjury, for where direct and wanton bribery has been reported to, no one will feel surprised to see perjury follow in its wake.

We wish to see a thorough examination of the facts, and have no apprehension as to the result. It will be proven that bribery was used, that ballot boxes were stuffed, and that non-residents, idiots and minors were allowed to vote.

Radical Impeachment of the President.

The Ohio disunionist, As ley, succeeded in having his resolution, providing for an impeachment of the President, passed through the lower house of Congress on the 7th inst.—The resolution was in these words:

Resolved: That the Judiciary Committee be, and they are hereby authorized to inquire into the official conduct of Andrew Johnson, Vice President, discharging the power and duties of the President of the United States, and report to the House whether, in their opinion, said Andrew Johnson, while in said office, has been guilty of acts which were designed or calculated to overthrow the laws of the Government of the United States, or any Department, or officer thereof; and whether the said Andrew Johnson has been guilty of any act, or has conspired with others to do any acts, which in the contemplation of the Constitution are high crimes and misdemeanors, requiring the interposition of the constitutional powers of the House, and that said Committee have power to send for persons and papers, and administer the customary oaths to witnesses.

It will be observed that this resolution does not directly impeach the President, but merely authorized the Judiciary Committee to "inquire into the official conduct of Andrew Johnson," &c. The matter is left entirely discretionary with the committee, and it may or may not make the "inquiry" that Ashley proposes. The general belief is that the committee will permit the resolutions to lie untouched and unnoticed; but we think otherwise. We believe that a majority of the committee is composed of just as crazy Abolitionists as Ashley, who are anxious to involve the country in another war, for the purpose of entirely destroying the Constitution and every semblance of Democratic liberty in this country—to the end that the sectional, fanatical, traitorous party that now rules, may have a longer lease of power.

This proposed impeachment of the President, although approved by the revolutionary and incendiary portion of the Abolition party, is not endorsed by many of the leading men and presses of the party that put President Johnson in office. The New York Tribune says there is nothing to be gained by it, no matter how much Mr. Johnson deserves it. The Herald says the President has been guilty of nothing more than his partisan predecessors, from Jackson down. The Times says the charge is nothing more than what has been repeatedly stated on the floor of the House, and believes the Senate will throw them out. The New York Evening Post, a Republican journal, says: "We are glad to hear that the House of Representatives does not favor the project of impeaching the President. We should think he might have a more ment to impeach him as a measure which was more likely to benefit than to hurt him."

These New York Republican papers are fully aware of the fact that to depose the President would produce a revolution in this country which would shake the Union from its centre to its circumference; and would probably involve an expenditure of blood and treasure that would be anything but agreeable to the honest, sober, reflecting, industrious men of our country, who do not live by political agitation.

Barbarous Whipping of a Young Girl.

Newtown, Cr., Jan. 11.—Charles E. Williams and Sarah Mann were put under \$5,000 bonds each for an aggravated assault on Williams' daughter. The facts developed show worse treatment than reported yesterday. Williams gave the child twenty-five lashes on the bare back because she asked for better food. The alleged cause of ill-treatment of the girl was her refusal to adopt the free love notions of Williams and his housekeeper. The latter claims to be a niece of the late Hon. Horace Mann. A strong guard is required to protect the jail from violence of the mob.

If the above occurrence had taken place in South Carolina or Georgia, instead of the saintly old wooden-nutmeg State of Connecticut, and the person whipped had been a negro instead of a white child, Oh! what a howl of indignation would be heard from the diabolical Radicals! Stevens and Ashley and Delano would have brought the subject before the Rump, and had a committee raised to investigate the facts, with power "to send for persons and papers." There is all the difference in the world between a white and a black girl, in the estimation of the philanthropists, "who are engaged in the cause of God and humanity."

C. L. Vallandigham is announced to lecture before the Young Men's Dem. Club of Boston.

Pennsylvania U. S. Senator—Bribery and Corruption.

Simon Cameron was nominated by the Republican caucus for United States Senator from Pennsylvania on the first ballot. The vote was: Cameron 46, Curtin 23, Stevens 7, Grow 5. The nomination was made unanimous.

This result has created intense excitement among the disunion Radicals in the old Keystone State, and the enemies of Cameron do not hesitate to charge that he resorted to his old game of buying up the Legislature, in order to secure his election to the Senate. The saintly Stevens and the virtuous Forney, are particularly indignant, and declare that they will not submit to this kind of rascality, while the friends of Governor Curtin, who were sure of his election, demand that the whole proceedings connected with Cameron's success shall be rigidly investigated. The Pittsburgh Commercial, the leading Republican paper in Western Pennsylvania, openly charges that Cameron bribed and bought up members of the Legislature. It says:

"We make no specifications now—the time for that has not come yet. Not to be more explicit at this time, we will say the reports as to men and amounts are numerous and consistent. These reports doubtless do injustice to some honest men, who are the exceptions, and should not be included among those who have undergone a change as sudden as it is remarkable. The fact shows how dangerous it is for honest men even to support for any station a man whose history affords a thousand reasons for the belief that he is unscrupulous as to the means he employs, and utterly corrupt."

The President, Congress and the Supreme Court.

The New York World, in the course of an able article in regard to the proposed impeachment of the President by the Rump Congress, remarks that it is not difficult to discover the motives which have pushed the Republican party to this desperate step. They have had a recent unequivocal demonstration that the Supreme Court is conservative; and with the two great co-ordinate departments of the Government against them, the further progress of their measure is blocked. The Supreme Court would not physical force. They have no power to enforce their decisions. It is their province only to declare what the law is. It is for the President, who is Commander in Chief of the Army, to execute it. If the Republicans controlled either of those great departments of the government—the Executive or the Judiciary—they could easily accomplish all their purposes. If they had the Supreme Court but not the President, all their measures would succeed by the obligation of the President to execute the laws adjudged by that tribunal to be valid. If, on the other hand, they had the President but not the Supreme Court, every unpopular decision of that tribunal would be cried down as a fruit of the odious Dred Scott precedent, and be disregarded by the Executive. But while they have neither the President nor the Supreme Court, their march is obstructed by a fortress which they cannot storm nor flank.

Wisely Done.

At the 8th of January Democratic State Convention, Hon. William M. Corry, of Cincinnati, denounced the adopted platform as "a tame and without practical force," and moved to amend by adding the famous Kentucky Resolutions of 1798. The Convention rejected this motion and Mr. Corry withdrew. The rejection was correct. The Democratic party are not Secessionists; and since the South thought proper to construe those resolutions as justifying their attempt to secede, it is not meet that they should be re-acted by those who do not admit that construction to be correct.—Plain Dealer.

The Pardoning Power of the President.

The act just passed by each branch of Congress to deprive the President of the pardoning power, repeals the following section of the Constitution Act:

"SECTION 13. And be it further enacted, That the President is hereby authorized at any time hereafter, by proclamation to extend to persons who participated in the late rebellion, in any State or part thereof, pardon and amnesty, with such exceptions, and at such time and on such conditions as he may deem expedient for the public welfare."

Horrible Murder at Dayton.

A dispatch from Dayton, January 12th, says: Miss Christine Kett, aged about 18 years, living on Oak street, in this city, was brutally murdered yesterday afternoon, during the temporary absence of her mother, by some unknown person. Bloody tracks were found in the snow outside of the house, and marks of blood were also found upon the fence. A discharged pistol, which belonged to her brother, was found by her side, but there were cuts upon her head made by some sharp instrument, and the supposition is, that in attempting to defend herself with the pistol from the lecherous assault of a ruffian, she was killed by him. The pistol was fired into the wound and so placed as to raise the presumption of suicide. No clue to the perpetrator of this horrible deed has yet been obtained.

A Chicago dispatch says the famous Stewart divorce case came up again on Wednesday. An immense crowd was in attendance. Four witnesses were examined, and the testimony was very damaging to the Reverend (?) Several gentlemen with whom he had been intimate swore to having visited houses of ill-fame with him, in which he had unlawful intercourse with the inmates.

A negro petition from Colorado has been sent to Washington, asking for the admission of the Territory as a State in opposition to the implied wishes of the Governor and the Legislature, who found their objection upon the Constitutional point that the resident population is not much more than half the law requires.

The New York Anti-Slavery Standard this week warmly advocates the impeachment of the President, believes it will soon take place, and declares that the Republican Congress, notwithstanding its overwhelming majority, will, without impeachment, be baffled in its most important legislation.

A returned Californian named Whiting, who has been absent for three years, found his wife living with another man in Philadelphia, and the mother of a child. He threw the child out of the window, stabbed the woman, and fled.

One hundred and sixteen M. C.'s have their families with them at Washington this winter.

The Consistency of the President.

After the publication of the following letter by Montgomery Blair, late Postmaster-general under the Administration of Mr. Lincoln, it will hardly do to charge President Johnson with inconsistency upon the question of reducing the Southern States to Territories:

NASHVILLE, November 24, 1864.
"To Hon. M. Blair, Postmaster-general:
"I hope that the President will not be committed to the proposition of States re-joining into Territories and held as such. If he steers clear of this extreme, his election to the next Presidency is without a reasonable doubt. I expected to have been in Washington before this time, when I could have conversed freely and fully in reference to the policy to be adopted by the Government; but it has been impossible for me to leave Nashville. I will be there soon. The institution of slavery is gone, and there is no good reason now for destroying the States to bring about the destruction of slavery. "ANDREW JOHNSON."

It will be seen that before his nomination for Vice-president, Mr. Johnson held to the same political views he has since carried out as President. His views were known at the time he was nominated. What Radical, then, has a right to complain?

The Attitude of the President.

The Washington correspondent of the Baltimore Gazette, in speaking of the late 8th of January celebration in that city, at which the President was present, says:

"At no time since his elevation to the Presidency has he given such decided evidence that he may be fully trusted in any emergency, and that he will be found equal to the task of meeting the dangers that threaten the country. His presence seemed to inspire the speakers with a spirit which has been quite unusual for the past few years. It would be invidious to particularize, but I may, with propriety, add that the speeches of Messrs. Black, Conkling, Doolittle, Merrick and Rodgers exhibited a tone far different from the timid and truckling election indulged in of late by the opponents of Congressional usurpation. In impassioned and emphatic language, the President was pointedly told by these gifted orators that upon the first attempt of the plotters to 'Cope with the Republic,' the President would lead the people to practical effect, they would look to him, as Commander-in-chief of the Army and Navy, to exercise his functions to their full extent, and that they could, after the occurrence of this evening, rely with renewed and undoubting assurance of his determination to do his full duty."

Hard Hitting.

The Harrisburg, (Penn.) Telegraph, (Rad.) with refreshing simplicity, asserts that "the moral element of the Legislature" is entirely committed to Mr. Cameron, "whereupon the Pittsburgh Commercial (Thad. Stevens) says the remark of the Telegraph is excessively hard on 'the moral element.'"

Ashley, the leading devil engaged in the conspiracy to depose the President of the United States, and to destroy the Government, is the fellow who, in March, 1861, wrote letters to one Frank Case, proposing that in consideration of having the said Case appointed Surveyor General of Colorado, he would engage in all sorts of speculations and stealings, and take Ashley in as a partner! A nice man, truly, this Ashley, truly to talk about the "corruption" of President Johnson! Oh shame, where is thy blush!

The New York Herald, which is now pretty well posted in regard to the designs of the Radicals, declares that it is the fixed determination of that faction to remove President Johnson from office, and to make Ben. Wade of Ohio President of the Senate, so that, under the Constitution, he may assume the duties of President of the United States! If these Radicals play the fool much longer, they may find themselves dancing one of these days without a platform to stand upon!

A destructive fire occurred at Willsborough, Ohio, early on Sunday morning. The principal sufferers are: W. F. Merriam, dry goods house; Vial & Holmes, grocery store; Vial & Ferguson, hardware; J. R. Perkins, grocer; Yarsley & Abbott, stores. The Post-office and the Merchants' Union Express office were also destroyed. The loss is estimated at \$30,000, partly insured.

Loan, in the House yesterday, read a speech in which he denounced the President as privy to the assassination of Abraham Lincoln. He was called to order, but the Speaker decided that the language was correct and proper under the circumstances. Truly we have fallen upon troublous times when the ravings of such a demagogue is listened to with complacency by the Nations legislators.—Ch. Evg.

The Markets.

There has been no material change in the markets, either at home or abroad, since our last.

In New York, flour is selling 9 40/100 to 15, according to brand; wheat 2 33/100; corn 68/100; dressed hogs 8 1/4; lard 12 1/2; butter 15 1/2; Ohio Hogs 50/100 to 50, gross, and 70/100, nett. Market firm.

Chicago—Flour inactive, and 15/20c. lower. Sales at \$10 65/100. Wheat 1 90/100 to 2.20. Live hogs in good demand 5.85/6.35.

Buffalo—Dressed hogs 7 1/2; flour 12; barley 11 1/4.

Cleveland—Flour \$12 50/100; wheat 2 40/100 to 2 60/100; corn 72/100; oats 44/45 on cars.

Bad for Ashley.

[Back to the Cincinnati Commercial.]
The impeachment scheme has taken a turn most unfavorable for its principal hero, Mr. Ashley. The object of the distinguished gentleman from Toledo was to have the whole subject referred to a special committee of which he, as the mover, would of course have been the Chairman. The House was ill-natured enough to intrust the business to the Judiciary Committee, of which Mr. Wilson, of Iowa, is Chairman, so that whatever comes of the "investigation," Ashley will not be heard of, except as a witness perhaps, any more.

This is very bad for Ashley, considering the giant strides he had made, or thought he had made, toward the leadership of the House; for of course if he had succeeded in getting of the impeachment of the President, he would have been a sort of ex officio leader. And what a gallant generalissimo for the great Republican party, to be sure! It is altogether too bad to have thus spoiled Ashley's hopes and prospects—to have grabbed the mantle of Thad. Stevens from him just as he was about to put it on.

Reports from the South state that there is a large emigration of whites from South Carolina, Alabama and Georgia, to Texas, and the negroes are also leaving there in great numbers, and fears are entertained that these States will suffer greatly for lack of labor the present year.

The Radicals and Chief Justice Chase—The Indiana Decision.

The Washington correspondent of the Baltimore Gazette says:

"I learn to day that the attacks upon the Supreme Court, by such prints as the New Herald, the Independent North American, and the Washington Chronicle, have, besides obvious motives, relation to movements inside the Republican party. Although, as it will be observed, these unscrupulous prints affect to distinguish between the Judges who unanimously sustained the decision complained of, yet it is known that Chief Justice Chase has given much umbrage to the extremists by his interviews with the President about a month since, a full and accurate account of which I gave you at that time. It was then remarked by one of the Judges of the District Court of this city, that the Chief Justice, in those interviews, was operated upon by motives connected with the next Presidency—and that it was his first duty to raise the price of election and this we choose to avoid. The action, and it is an extortion to which we shall not yield. For example, it is publicly stated that the Garvey Paper Company, of South Hadley Falls, Mass., has just declared a yearly dividend of one hundred per cent, besides reserving a fund sufficient to build an addition to their mill. Last year the dividend was one hundred and twenty per cent. The publishers of one of the most widely circulated school books have actually sent the stereotype plates to England, and caused it to be printed and bound there, and shipped hither, because they can do this cheaper than they can buy the paper and get the work done here. A bird of the books sold in New York at this time are imported from England."

Comment by the Albany Argus.—What the above article calls a combination ought rather to receive the name of a conspiracy. The proper remedy would be to reduce the tariff upon foreign paper. The Massachusetts garbier who are thus paying one hundred per cent, a year profit for infamous legislation are ready to perpetrate this profitable rule at the hazard of civil war. The reason why New England demagogues and their allies are keeping the country in dread, and excluding States from representation, is the hope of holding on to ill-gotten gain.

Product of an Acre.

The Northwest, printed at Napoleon, Henry county, Ohio, relates that R. B. Houston, of Damascus township, in that county, raised during the last season from an acre of land, eighty bushels of potatoes, eight bushels of sweet potatoes, fifteen bushels of turnips, five bushels of sweet corn, two bushels of white beans, one hundred and fifteen heads of cabbage, twelve hundred cucumbers, one hundred water-melons, fifteen squashes and thirty gallons of molasses. If that is not successful culture, we are at a loss to know what to call it.

One Glass of Wine.

The Duke of Orleans, the eldest son of King Louis Philippe, was the inheritor of whatever rights the royal family could transmit. He was a noble young man—physically and intellectually noble. One morning he invited a few companions with him as he was about to take his departure from Paris to join his regiment. In the conviviality of the hour he drank too much wine. He intoxicated; he was not in any respect a dissipated man.—His character was lofty and noble. But in that joyous he drank a glass too much. He lost the balance of his body and mind. Bidding adieu to his companions, he entered the carriage.

But for that extra glass he would have kept his seat. He leaped from his carriage. But for that extra glass of wine he would have alighted on his feet. His head struck the pavement. Senseless, bleeding, he was taken into a beer shop and died. That extra glass overthrew the Orleans dynasty, confiscated their property of one hundred millions of dollars, and sent the whole family into exile.—Harper's Magazine.

Lucky and Unlucky Days.

A "Book of Precedents," published in London, 1616, contains a calendar, many of the days in which the letter B affixed; which signifies such days as the Egyptians note to be dangerous to begin or take anything in hand, or to take a journey or any such like thing. The days thus marked are:

January 1, 2, 4, 5, 10, 15, 17, 19.
February 7, 10, 17, 27, 28.
March 15, 16, 28.
April 7, 10, 16, 20, 21.
May 7, 15, 20.
June 4, 10, 22.
July 15, 20.
August 1, 19, 20, 29, 30.
September 3, 4, 6, 7, 21, 22.
October 4, 16, 24.
November 5, 6, 28, 29.
December 6, 7, 9, 15, 17, 22.

JOKER'S CORNER.

"Why, doctor," said a sick lady, "you are giving me the same medicine that you are giving to my husband. Why is that?" "All right," replied the doctor, "what is sauce for goose is sauce for the gander."

"Sixteen in his boots!" exclaimed Mrs. Partington. "What will the importance of this world come to, I wonder!—Why, they might just as reasonably tell me that this man had six heads in his hats."

"If I were so unlucky," said an officer, "as to have a stupid son I would certainly make him a parson." A clergyman who was in company replied, "You think different from your father!"

Here is an economical recipe for making lemonade?
Get a bowl of pure water, let a dozen pretty girls kiss it, then get one old maid and just let her look at it and the lemonade is done did.
N.B.—If she looks twice at it, another dozen girls must be got immediately.

A MODEL TENANT—"Jimmy, get some kindlin' an' make a fire."
Please, sir, I can't—Misther O'Brine used the last banister yesterday."
"The banisters gone? Thin go on the roof and thry the virtue of thim shingles."
Exit Jimmy.

THROAT,

LUNGS,

HEART,

LIVER,

AND STOMACH,

Known all over the country as the

CELEBRATED

Indian Herb Doctor,

Will, during 1865, 1866 and 1867,

CONTINUE TO VISIT

The following places, viz,

Mt. Vernon, Kenyon House, 11th

12th of each month.

Mr. Field, at Water House, 9th of each month;

Ashtabula, at McNulty House, 10th of each month;

Newark, at "Treston House, 13th and 14th of each month;

Toledo, at Summit Street House, 25th and 26th of each month.

A blade of grass, a simple flower

Called from the dewy sea;

The Doctor shall speak with touching power

Of change and health to these.

Office in Cleveland, Ohio, No. 210 St. Clair street,

near [unclear], Union days in Cleveland each month, on the 1st, 2d, 3d, 4th, 5th, 15th, and 16th.

Maxim strictly adhered to—

With nature or the laws of life;

With blood my hands I never stain,

Nor poison men to ease their pain.

He is a Physician indeed who Cures.

The Indian Herb Doctor, R. J. LYONS, cures the following complaints in the most obstinate stages of their existence, viz: Diseases of the Throat, Heart, Liver, Stomach, Dropsy in the Chest, Rheumatism, Neuralgia, Fits or Falling Sickness, and all other Nervous Derangements. Also, all Diseases of the Blood, such as Scrofula, Erysipelas, Cancer, Fever, Sores, Leprosy, and all other complicated Chronic Complaints.

All forms of Female Difficulties attended to with the happiest results.

It is hoped that no one will despair of a cure until they have given the Indian Herb Doctor's Medicines a fair and faithful trial. During the Doctor's travels in Europe, West Indies, East Indies, South America and the United States, he has been the instrument in God's hand to restore to health and vigor thousands who were given up and pronounced incurable by the most eminent old school Physicians; many more thousands who were on the verge of the grave, are now living monuments to the Doctor's skill and successful treatment, and are daily exclaiming: "Blessed be the day when first we saw and partook of the Indian Herb Doctor's Medicine."

Satisfactory references of cures will be gladly and cheerfully given whenever required.

The Doctor pledges his sacred word and honor that he will in no way directly or indirectly, induce or cause any invalid to take his medicine without the strongest probability of a cure.

Mode of Examination.

Dr. L. discards diseases by the Eye; he, therefore, asks no questions, neither does he require invalids to explain Symptoms. Let one and all have their symptoms and the location of their diseases explained free of charge.

Remember, consultation and advice free. The poor shall be liberally considered. The Dr. has issued a pamphlet containing a brief sketch of his life, study and travels, which can be had free of charge by all who desire one.

Post Office address: Prof. R. J. Lyons, Cleveland, Ohio, Box 2603.
